Letter No. G. 43. Ds. 15-7-43 from the Govt. Sirdar requesting in the circumstances stated sanction of Govt. for getting a Vacuum Evaporator made locally at an approximate upper limit of Rs 15,000/- and to treat the same from the Capital grant of the D.T.L for 1943-44 and also for granting the General Manager to place orders himself for a Calandria type said evaporator with M/s. P. M. Madurai Mudaliar & Sons, Bangalore at a Cost of Rs 3260/-.

The Govt. Sirdar has stated that arrangements are being made to place orders for the Vacuum Evaporator, the purchase of which was sanctioned in the G.O. No D. 7223-26/Se 89-42-1 dated 8-5-43 and that the Evaporator will not be available to the Laboratory for one or two years and that an evaporator is urgently required by the D.T.L for the manufacture of Raji Malt Extract and for expanding the production of Liver Extract and other products.

He has accordingly requested sanction for getting an evaporator made locally at an approximate upper limit of Rs 15,000/- the expenditure being treated as of the Capital grant of the Laboratory for the year 1943-44.

He has also reported that it is possible to get the various parts of the Evaporator made locally by different firms at the same time & same time and get the equipment ready at the D.T.L as early as possible and that M/s. P. M. Madurai

Medalcan & Sons is only have quoted Rs 3,260 for the Calandria of the evaporator which it is proposed to get - the other parts of the evaporator such as the Condenser, the Evaporating Chamber etc from other local firms after calling for quotations

He has therefore brought to the notice of the Chief - the General Manager of the Laboratory & place orders immediately for ~~the~~ a Calandria with the above firm at a Cost of Rs 3,260/- as the prices are likely to go up in the near future.

Draft - held for Consideration.

19/7/43 If the proposals of Your Sir are approved it is for Consideration whether it may be directed that orders for the various parts of the Evaporator ~~including Calandria~~ should be placed with the local firms through the Secy. S.P.C.

20/7/43 The proposals of the Director, S.I.C. may be generally approved. He may however also get in touch with the Director D.I.C & find out if the S.I. Workshop can be of any use

Government Order No.D.469-71/I&C.590-40-2 dated 28th July 1941 sanctioning a scheme for the manufacture of ragi malt extract at the Government Industrial & Testing Laboratory, Bangalore, as also a Capital grant of Rs.5,000/- for the purpose.

2. Correspondence ending with letter No.G.726 dated 23rd March 1943 from the Government Director, Industrial Concerns, stating that in order to undertake the manufacture on a large scale of malt extract which is required by the Industrial & Testing Laboratory for some of its own products and which is in demand from the Supply Department of the Government of India, a Vacuum Evaporator is necessary and requesting in the circumstances explained sanction for the purchase (from Messrs. George Scott and Sons (London) Ltd.) and installation of an evaporator at a total cost of Rs.36,000/- in the Govt. Industrial & Testing Laboratory, Bangalore, for the manufacture of Ragi Malt extract on a large scale, the expenditure being provided for as a capital grant in the Budget of 1943-44 and stating that the purchase of the evaporator will be made through the Secretary, Stores Purchase Committee and the Trade Commissioner for Mysore in London.

ORDER NO.D.7223-26/I&C. 89-42-4 dated Bangalore, the 8th May 1943.

Government Director, Industrial Concerns,
BANGALORE.

To

The Secretary to Government,
Development Department,
Bangalore.

Sir,

Subject:- Purchase of a Vacuum Evaporator for the Industrial and Testing Laboratory.

I have the honour to state that the General Manager, Industrial and Testing Laboratory reports that a Vacuum Evaporator is urgently needed for the Government Industrial and Testing Laboratory, Bangalore, for the manufacture of Ragi Malt Extract and for expanding the production of Liver Extract and other products. At present there is only one Vacuum Evaporator in the Laboratory which is completely engaged in the manufacture of Liver Extract. Sanction was obtained recently from Government in their Order No.D.7223-26/I&C 89-42-4 dated 8th May 1943 (copy enclosed) for the purchase of a Vacuum Evaporator from England at a cost of Rs.36,000/- for the manufacture of Ragi Malt Extract on a large scale, and arrangements are being made to place orders for this Evaporator in England as soon as the Import License, applied for, is obtained. Owing to the prevailing war conditions, an order placed on manufacturers in England will take a considerably long period for execution. The manufacture of the equipment and its shipment and receipt in India will be delayed considerably. The Vacuum Evaporator to be ordered for will therefore not be available to the Laboratory for one or two years. In the meanwhile the need for an Evaporator for preparing Ragi Malt, Liver Extract and other products is being felt keenly as the production of these has to be speeded up. The possibility of getting an Evaporator fabricated locally was investigated and quotations were called for by the General Manager from various local firms for the manufacture of an Evaporator exactly similar to the one at present in the Laboratory which is smaller than the one to be got from England.

The General Manager, Government Industrial and Testing Laboratory reports that it is worthwhile getting the various parts of the Evaporator made by different firms at the same time in order to save time and get the equipment ready at the Laboratory as early as possible. A quotation for the Calandria of the Evaporator has been obtained from Messrs.P.M.Madurai Mudaliar & Sons, a local firm of repute. The Calandria requires very accurate workmanship and the firm has quoted Rs.3,260/- for it. It is proposed to get the other parts of the Evaporator such as the Condenser, the Evaporating Chamber, etc. from other local firms after calling for quotations. As the firms do not furnish quotations to hold good for a long period in the present conditions of the market, and orders have to be placed close on receipt of quotations, it would not be possible to say what exactly the cost would be beforehand.

On a rough estimate, the total cost is reported to vary between Rs.10,000/- to Rs.15,000/-. I request you to kindly obtain sanction of Government for getting an Evaporator made locally at an approximate upper limit of Rs.15,000/- and to meet the same from the Capital grant of 1943-44. As the matter is urgent, I ~~am~~ may in the meanwhile be permitted to instruct the General Manager, Government Industrial and Testing Laboratory to place orders immediately in anticipation of sanction of Government for a Calandria with Messrs.P.M.Madurai Mudaliar and Sons, Bangalore City at a cost of Rs.3,260/- as the prices are likely to go up substantially ~~in the~~ with efflux of time.

The General Manager, Industrial and Testing Laboratory reports that even after the Evaporator proposed to be got from England is received, there will be sufficient work to keep all the three Evaporators fully engaged. I agree with his opinion as Vacuum Evaporators can always be used for various *~~Laboratory~~ and the present Evaporation capacity is quite ~~an~~ inadequate. The early orders of Government are requested.

*items of work in the laboratory

I have the honour to be,
Sir,
Your most obedient servant,

Government Director,
Industrial Concerns.
